...making excellence a habit.™

This certificate was issued electronically and remains the property of BSI and is bound by the conditions of contract. An electronic certificate can be authenticated [online](#). Printed copies can be validated at [www.bsigroup.com/ClientDirectory](http://www.bsigroup.com/ClientDirectory)

## Safety and Health Policy Statement

### Purpose:

Walls Construction conducts its business by giving priority to health, safety and welfare. The Company is committed to eliminating all accidents, incidents and work-related illnesses and to the continual improvement of occupational safety and health management and performance.

### Aim and Commitment:

This statement sets out the Company's commitment to achieving the highest standards of health and safety management in its operations and to fully meet its statutory obligations, including the Safety, Health and Welfare at Work Act, 2005, the Safety, Health and Welfare at Work (Construction) Regulations 2013 and the Safety, Health and Welfare at Work (General Regulations) 2007, which are regarded as minimum standards. This is achieved by:

- Maintaining a safety and health management system certified to OHSAS 18001.
- The establishment and enforcement of safe systems of work in compliance with legislation and industry best practice.
- The employment and engagement of health and safety personnel with the skills, qualifications and competence to manage their functions effectively.
- Ensuring that the Company, its employees and others take full cognizance of the safety and health implications of all business decision making.
- Maintaining a proactive safety culture evident in the Company's recruitment, learning and development, communications and procurement policies, including various initiatives that reward the identification and elimination of unsafe practices and the introduction and maintenance of positive interventions.

These aims are achieved by having systems of work that are safe and without risk to the safety and health of all stakeholders, including;

- Safe premises and workplaces, including access to and egress from them.
- High standards of housekeeping in these locations, including healthy working environments and appropriate welfare facilities.
- Procedures to ensure that those undertaking work on behalf of the Company adhere to the same standards of health and safety in their activities, and the support to enable them to contribute to overall improvements in our health and safety performance.
- Unambiguous safety and health performance measures such as accident and incident rates, the results of audits, inspections, and reviews and achievement rates against our agreed KPI improvement targets.
- Use of appropriate occupational health and safety knowledge and advice from our in-house resources and as required the use of external expertise, including statutory bodies, local authorities, professional organisations and others.

The Managing Director has overall responsibility for implementing this policy. However, it is the responsibility of all employees to take the appropriate actions, collectively and individually, to ensure that the aims and scope of this policy are achieved. The policy statement is reviewed on an annual basis to take account of legislative changes and other developments that contribute to ensuring a safe working environment for all.

  
Eugene O'Shea  
**MANAGING DIRECTOR**
