

Environmental Policy

COMMITMENT

In Walls we fulfil our sustainability commitments by conducting our business in an environmentally sustainable manner by protecting the environment and safeguarding the health, safety and welfare of all persons working for us or on our behalf.

As sustainability is one of our core company values, we are committed to preventing pollution, protecting the natural environment, enhancing biodiversity, reducing carbon and ensuring that all works are carried out in accordance with current environmental regulatory and other compliance requirements.

ENVIRONMENTAL MANAGEMENT

To manage our environmental performance, promote our company values and meet our objectives, we maintain and continually improve our ISO 14001 Environmental Management System by:

- Managing our system and work activities to enhance environmental performance and enable continuous improvement.
- Using our Environmental and Sustainability policies as a framework to set objectives.
- Evaluating the environmental aspects of our activities and where possible, minimising the resulting environmental impacts.
- Facilitating communications regarding our performance, objectives and plans.
- Ensuring that our Board, management teams and persons working for and on our behalf are aware of their environmental responsibilities through the provision of communications, training and support.
- Focusing on our environmental commitments, which include:
 - The prevention of pollution, protection of the natural environment and biodiversity enhancement.
 - Continued development of our sustainability commitments in line with the UN Sustainability Goals and ESRS.
 - A commitment to manage our environmental impact as outlined in our Sustainability Action Plan.
 - Ongoing work with our supply chain to deliver our commitments and manage environmental performance.
 - Environmental monitoring and measurement to demonstrate compliance and best practice.
 - Management of our carbon impact as outlined in our Carbon Action Plan.
 - Sustainable project design and construction.
 - Increase our focus on biodiversity as outlined in our Biodiversity Action Plan.
 - To be a considerate neighbour and work with our local communities to achieve positive outcomes.
- Measuring our environmental performance and compliance levels by self-monitoring and conducting regular inspections, audits, and reviews.

Walls shall ensure that this policy is communicated, understood, implemented and maintained by all persons working for us and on our behalf. It will be published internally and posted on our website.
